SPRING SUMMER 2024/25 COLLECTION

Thierry Rabotin: 25 years of unrivalled style and comfort

THIERRY RABOTIN
FALL WINTER 2024/25 COLLECTION

Since we began catering to the needs of the most refined women, our brand has continued to embody the irresistible combination of timeless elegance and impeccable comfort. Thierry Rabotin, the visionary French designer who started our brand together with Giovanna Ceolini and Karl Schlecht, has always believed in turning shoes into true companions, designed to offer unparalleled comfort and uncompromising elegance.

Once again this season, the renowned Thierry Rabotin Couture, Timeless, Travel and Maison lines welcome new additions of models, materials and colours, further enriching the vast family of Thierry Rabotin creations and consolidating their prestige in the fashion world.

This Winter, the Thierry Rabotin collection lights up with a multitude of new additions, with a focus on structures and soles custom-designed to reflect the uniqueness of each model, drawing inspiration from the rich history Thierry has left us and reintroducing an asymmetrical toe shape, combined with a new sole designed to enhance the extraordinary elegance of each creation.

Black prevails in our collections, declined through the skilful use of materials such as patent leather, nappa leather, suede and metallic touches to create truly refined combinations. There is no lack of room for even bolder combinations, combined with colours such as avocado green, grey with blue hues, antique pink and wine.

Unmissable models with soft microfibre uppers that adapt perfectly to every foot, guaranteeing unparalleled comfort and turning each shoe into the ideal companion for every occasion.

The Timeless line is renewed with a modern interpretation of iconic Monsieur Rabotin models. Voluminous soles and refined details blend with extraordinary lightness thanks to our skilful hands, embracing the anatomy of each foot to offer extraordinary comfort.

The FW2024/25 collection comprises a wide range of styles, including loafers, 'Peter Pan' shoes, ankle boots and comfortable wedges, with heights ranging from 5 cm to 8 cm. Our heels, available in two different heights (3 cm and 5 cm), coexist harmoniously with the seductive 6 cm stiletto line.

The Travel line, designed to satisfy those who love travelling, moving and being on the move, consolidates the great success achieved in the previous season. An innovative FLAT proposal is distinguished by a revolutionary detail: the insole lifts the heel 2 cm off the ground, offering a new standard of comfort and practicality.

This collection has been developed on the basis of our most orthopaedic form, synthesising all the distinctive features of our brand: the "sack" construction, the anatomic removable insole in orthopaedic polyurethane covered in fine full-grain leather, to guarantee maximum wellbeing for the feet, and the Extralight® sole, accompanied by an exclusive design signed by us, which ensures maximum flexibility for our models.

In addition, Thierry Rabotin offers a personalised shopping experience, with the vast majority of the line being customisable in every detail to suit the preferences and tastes of discerning customers from all over the world.

Timeless elegance, attention to quality materials and priority to comfort continue to characterise Thierry Rabotin's philosophy, making each pair of shoes an authentic expression of distinctive style.
